Mansfield, Louisiana • 10:30 am CST

The Branch Ranch

Tommie Rogers

Tommie Rogers was born and raised in Abbeville, Louisiana and is the son of Effie Rogers and the late J.C. "Black" Rogers, also of Abbeville. Tommie is married to Janice Fortner Rogers, with whom he has four lovely daughters and 10 grandchildren.

Dr. P.O. Landry and Tommie's grandfather, Chon Broussard, introduced Tommie to the world of animals and open land as a young boy. He spent countless days playing "Rawhide" in the open fields of Delcambre. These early childhood experiences solidified Tommie's desire to pursue his love of land and animals. Tommie's bond with his father was one of mutual respect and understanding – his father instilled in him, from a young age, the will to never give up on your dreams; quitting was not an option. Tommie attributes his success to his father's example of hard work, integrity and honor. Like his father, Tommie firmly believes these principles are the key to success.

Upon graduating from the University of Southwestern Louisiana, Tommie ventured into the oil industry working for several service companies in the Gulf of Mexico. In the late '70s, he started his own oil tool service company, Rogers Oil Tools Services, Inc. where he was the owner and president for 30 years. As a result of his innovative ideas and ambition, Tommie led Rogers Oil Tools Services, Inc. into an internationally respected brand.

While pursuing a career in the oil industry, Tommie was presented with the opportunity to buy land and live out a childhood dream. In 1982 Tommie bought his first piece of land in the town of Branch, Louisiana. With just six cows, he began a second career in the cattle industry by establishing The Branch Ranch. He was determined to build a successful cattle operation. As his daughters matured, Tommie introduced them to the cattle industry through the 4-H program, where he supported them with beef cattle for their projects. For 12 years Tommie and his daughters traveled around the country showing Brangus cattle. Through the years, Tommie developed valuable relationships with area cattlemen as well as cattlemen throughout the country. The condition and value of his animals, as well as the honesty of his opinion, afforded him the respect of cattlemen everywhere.

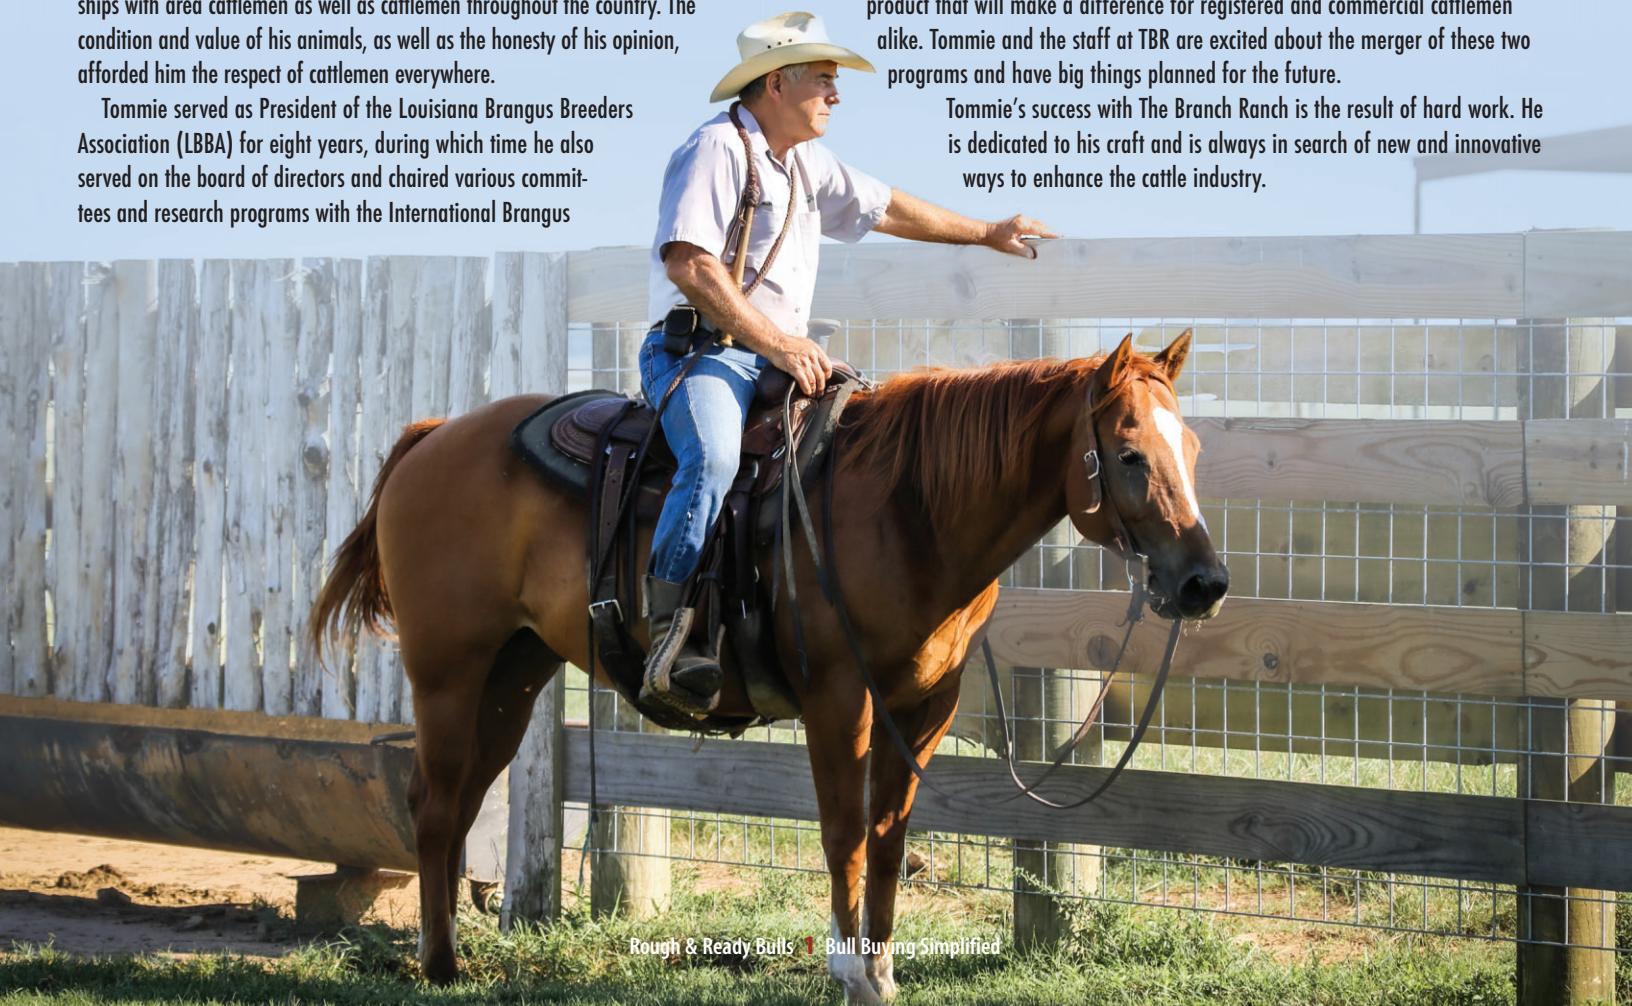

Tommie served as President of the Louisiana Brangus Breeders Association (LBBA) for eight years, during which time he also served on the board of directors and chaired various committees and research programs with the International Brangus

Breeders Association (IBBA). Tommie expanded his interest in the Brangus industry even further when he served as President of the IBBA from 1999 to 2000. In the midst of it all, The Branch Ranch outgrew its original location in Branch, Louisiana. In 1996 Tommie moved the operation to its current location in Mansfield, Louisiana. The new property provided ample space for Tommie's cattle operation, as well as room for expansion. The Branch Ranch continued to grow and in 2003, the Louisiana Cattle Festival and Fair named Tommie Rogers Outstanding Cattleman of the Year.

Big changes came for Tommie and The Branch Ranch in 2007 when he sold Rogers Oil Tools Services, Inc. With more time on his hands, Tommie devoted his efforts to his herd and a new era of The Branch Ranch. This included the purchase of The Island Plantation property in 2012, located near Natchitoches, Louisiana. The addition allowed Tommie the opportunity to expand his cattle operation making a bigger impact within the cattle industry. The property in Natchitoches, Louisiana is now the development center for weaned cattle and The Branch Ranch's specialty breeding programs. It is also the host to the development center for the two-year-old breeding bull program. In March of 2022, Tommie decided to further utilize the Natchitoches facilities by offering a full-service bull and heifer development program. This program is designed to suit the needs of outside producers with varying herd sizes and breeds. The Branch Ranch staff works with great effort, knowledge and determination to provide a service like no other. The main ranch location in Mansfield continues to be devoted to a registered mama cow operation.

Changes for The Branch Ranch continued into 2023 with the acquisition of the famed Williams Ranch Company Brangus cow herd. The WRC herd was moved to the Homestead Ranch in Giddings, Texas and will be the base of The Branch Ranch Texas operation. The two ranches have had a longtime working relationship and have a deep appreciation for Brangus cattle. The goal remains the same, striving to offer a product that will make a difference for registered and commercial cattlemen alike. Tommie and the staff at TBR are excited about the merger of these two programs and have big things planned for the future.

Tommie's success with The Branch Ranch is the result of hard work. He is dedicated to his craft and is always in search of new and innovative ways to enhance the cattle industry.

General Information

Schedule of Events

Bulls available for viewing at TBR Island Plantation Division through Tuesday, October 31, 2023 at 253 George Thomas Road, Natchitoches, Louisiana. Map on page 48.

Thursday, November 2 - Sunday, November 5

Bulls & Commercial Females available for viewing in Mansfield
Join us for an early evening gumbo on Sunday, November 5th.

Friday, November 3, 2023

8 am Online pre-bidding begins

Monday, November 6, 2023

Pre-Bidding & Buying Online

Pre-bid, Bid and Buy at www.BrangusAuctions.com

Create New Account

Click 'Create New Account' on the homepage and fill out the form with Contact Information (including email and password), Time Zone, and Language Preferences. Read the Terms and Conditions, and if you agree to the Terms then accept the Terms and Conditions (click check box) and click Submit.

Activate Your Account

After successfully registering, you will receive an email with a link provided to activate your account. Click on the link, or copy and paste the link into your web browser. You must activate your account before you can login and view a sale.

Login – Click Login at the top right, then enter your email address and password that you used when registering and click Login or hit Enter on your keyboard.

Editing Contact

Information To change or update your Account Information/Settings, click My

Account on the Homepage.

You will then be able to change Contact Information, Bank Information, Login Information (email/password), and/or Account Settings (Email notifications, Time Zone and Language preferences).

Apply to Bid –

There are several ways to apply for bidding. On the homepage, there will be a button for each upcoming event. There is also a 'Apply for Bidding' link available while viewing a sale.

Max Bid – The maximum amount a bidder is willing to pay for a lot. If two max bids of the same amount are placed for the same lot, the bid that was placed first will be taken over the other bid. If you have been outbid and your account is setup to receive notifications, you will receive an email informing you that you have been outbid. Your max bid can be raised at any time.

Taking Your Rough & Ready Bull Home

BULLS THAT ARE PURCHASED FROM THE BRANCH RANCH

RANCH are rough and ready bulls that have been in the company of 150+ herd mates for the duration of their life span. When these bulls are taken home from our ranch, they will need a period of adjustment prior to being used for breeding. This period allows them the opportunity to settle into a new home and a new system. We suggest putting your new bull(s) in an area with another animal such as a bred cow or steer and keeping this area from large viewing crowds.

As breeders, we have come to expect our purchases to increase in value over time. Proper feeding, care and maintenance are of utmost importance to support this expectation. In order for your new bull(s) to reach their full genetic potential a little attention before and after each breeding season is essential.

Good management practices for newly purchased bulls can also make a tremendous difference in the productivity and longevity of productive performance. Outlined below are some of the practices we feel hold the most weight.

- During the adjustment period supply the bull with fresh water and quality hay and after a 24-hour period you may provide them with additional energy at approximately one percent of body weight.
- Although highly recommended, if an adjustment period area is not an option and the bull must be turned out with the cow herd, bring the herd to meet the bull and allow them to return to the pasture together.

• In order to avoid injury, do not turn your new bull loose with an older bull. Keep his company to the cow herd, bred cows and steers.

• For his first breeding season, your new bull should be limited to a minimum number of cows to service. This number is typically related to his age. A good point of reference for a two-year-old bull would be 20 cows.

• It is important to keep a close eye on the condition of your bull once he is turned out for the breeding season. An excessive loss of body condition at a fast rate could mean he is fighting an illness. Some illnesses if not caught early can be detrimental to the development of your bull. If you feel there is a need for concern take the time to visit with your vet. You may also want to keep in mind that hay and/or pasture alone do not provide sufficient nutrients for growing bulls. Additional energy may be necessary.

• Your bull is 50% of the calf crop that he has bred so it's imperative that you have a set process for parasite control and you stick with it. This process should include treating for internal parasites as well as using an effective form of external parasite control.

If possible, bulls need to be kept at least a pasture away from cows that are in heat in the off-season. In cases where circumstances may inhibit this practice, proper fencing is a must. Using board or pipe fencing will yield much better results than a wire fence which can often be challenging. Lastly, but certainly not least, be sure to provide shade and clean water.

About the Bulls...

The Branch Ranch is offering 96 of our top rough and ready bulls. These bulls have been hand-selected from a group of over 130 bulls based on phenotype, structural soundness, fertility, and maternal qualities. These bulls are in peak physical condition and are ready to go to work. Under normal conditions, our bulls go into the breeding season with ample body condition to maintain libido, motility, and breeding effectiveness. This year we are offering an exceptional set of bulls sired by a number of our top herd sires. That group of sires includes **BWCC Doc 468F42** who ranks in the top 2% for TM, 3% for Heifer Pregnancy and top 4% for Milk. He's in the top 5% for Term Index, top 10% for IMF, REA; and top 15% for WW and YW. TBR is offering several bulls sired by our great herd sire, **BR Future Focus 333D6**, son of the great **CCC Infocus 129X32**. Also available are sons of **Great Basin 129B4**, **MC Boulder 129C4**, **BWCC Something Soggy 10G4** and **Mr JLS Tequila 915B29** to name a few. These bulls have provided excellent out-cross opportunities for our Brangus cattle. The Branch Ranch bulls are grown in pastures that range in size from 100-300 acres ensuring they are built to travel and in excellent physical condition. TBR bulls have been developed on a high forage ration with a targeted gain rate of 3 pounds per day while grazing in Bermuda grass pastures. All TBR bulls are sound and ready to breed and have passed both BSE and Trich tests 30 days before the sale. Lastly, all bulls are BLV and Johnes free. Please give us a call to make an appointment to view the bulls prior to the sale.

The Branch Ranch Development Center

a division of *The Branch Ranch*

The Branch Ranch is now offering a **FULL-SERVICE BULL AND HEIFER DEVELOPMENT PROGRAM** at its island plantation facility. Utilizing our first-class facilities we offer a wide variety of programs to suit a producer's development needs. We work closely with nutritionists and veterinarians to develop a forage-based feeding program that develops cattle with sound feet and legs. Bulls are developed with the **fit-not-fat** attitude and are ready for service when they leave our facility. We work with producers of varying sizes and breeds.

Services Offered:

- Feeding Programs for Sale Development
- Feeding to Develop Herd Sires
- Heifer Synchronization and AI
- ADG Collection
- Sale Preparation on Bulls...clipping, videos, photos etc.
- BSE and Trich Testing

Please contact us for more information.

We have 480 straws of frozen semen on WRC Mr Patron 20K from two collections at Champion Genetics. **We are selling 100 units of semen with the bull and TBR will retain the remaining 380 units for ranch use only.**

TBR Acquires WRC Brangus Herd!

THE BRANCH RANCH IS PROUD TO ANNOUNCE THE ACQUISITION OF THE FAMED WILLIAMS RANCH COMPANY BRANGUS COW HERD.

The WRC herd has been relocated to the Homestead Ranch in Giddings and will be the base of our Texas operation. TBR and WRC have had a longtime working relationship. Our philosophies of producing Brangus are in line with each other and we both have a deep appreciation for Brangus cattle. Each year we strive to offer a product that will make a difference for registered and commercial cattlemen alike. We are excited about the merger of these two programs and have big things planned for the future.

Commercial Females

About the Females Selling...

This year we are offering 150+ Branch Ranch bred and raised commercial females. The offering primarily consists of bred females with fall pairs comprising approximately a quarter of the offering. All females were bred to Branch Ranch Brangus or Ultrablack bulls. The Branch Ranch will sort the females by pregnancy status and phenotype ranging in group size from 3-5 head. These listings will be available on sale day. All bred heifers will be certified safe in calf by our ranch veterinarian and the data will be available on sale day. The females will be available for viewing the week before the sale at the Mansfield, Louisiana location or by appointment prior to that. Buyers will have the option to roll the next pens of females at the established price as long as the females are of the same type. Any additions or changes will be noted on the sale day supplement sheet.

LOT C-1 ~ Heavy Bred Brangus

Eleven (11) head, 7-8 months bred to a Branch Ranch Brangus or Ultrablack Bull. Tag #'s 100-110.

LOT C-2 ~ Fall Brangus Pairs

Twenty-eight (28) head, calf at side from a Branch Ranch Brangus or Ultrablack Bull. Tag #'s 111-138.

LOT C-3 ~ Fall Baldy Pairs

Nine (9) head, calf at side from a Branch Ranch Brangus or Ultrablack Bull. Tag #'s 139-147.

LOT C-4 ~ Fall Red Cross Pairs

Four (4) head, calf at side from Branch Ranch Brangus or Ultrablack Bull. Tag #'s 148-151.

LOT C-5 ~ Spring Bred Brangus (Coming 2-year-olds)

Eighty-eight (88) head, 2-5 months bred to a Branch Ranch Brangus or Ultrablack Bull. Tag #'s 152-239.

LOT C-6 ~ Spring Bred Brangus (3-year-olds)

Seventeen (17) head, 2-5 months bred to a Branch Ranch Brangus or Ultrablack Bull. Tag #'s 240-256.

safe-guard®
(fenbendazole)

“We noticed that we had a tremendous response from Safe-Guard® immediately.

Tommie Rogers proves efficacy and ease of use really do go together.

“It’s the same results, every time. As soon as you deworm these cattle, they come out slick, looking healthy.”

Louisiana is ground zero for parasites. That's why he drenches his cattle with Safe-Guard dewormer every time he works them through the chute. And when it's impossible to gather his cows, he opts for Safe-Guard cubes, one of several formulations available. And Safe-Guard acts fast, so cattle start getting the most from their feed right away.

Still have doubts?
See the rest of the story at
safeguardworks.com

Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

RESIDUE WARNING: Cattle must not be slaughtered within 8 days following last treatment. For dairy cattle, the milk discard time is zero hours. A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in calves to be processed for veal.

Terms & Conditions

Except for those stated in the below terms and conditions, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees set forth in the "Terms & Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therin shall be the sole and exclusive remedy of the buyer, or any party through buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

1. BIDDING: Each animal will be sold to the highest bidder without reserve. In regards to the live closeout, the auctioneer in charge will settle any disputes as to bids, and his decision shall be final.

2. PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold, but will not be delivered until settlement has been made.

3. CERTIFICATE OF REGISTRY: When full settlement has been made, a certificate of registration will be furnished and transferred to the purchaser on those lots that are registered.

4. HEALTH: All animals where possession is sold are eligible for interstate shipment except as otherwise noted. Any testing necessary for intrastate or interstate shipping will be done within thirty (30) days of the sale date. A health certificate will be furnished upon completion of purchase.

5. ANNOUNCEMENTS: Announcements from the live auctioneer will take precedence over the printed matter in this catalog. All cattle will be sold by lot numbers as announced by the auctioneer.

6. BREEDING GUARANTEES: (A) All animals are guaranteed to be breeders with the exception of (1) injury or disease occurring after sales; (2) negligence or willful misconduct on the part of the purchaser. (B) Any bull is considered a breeder if he settles cows by natural service and passes a fertility test made by a competent veterinarian during any six month period trial.

7. OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENTS:

A. All claims for adjustment or refund must be made in writing within six (6) months of the sale date. B. Any animal that has not proven itself a breeder within the time limits specified above, if in healthy condition, may be returned to seller at buyer's expense, and buyer may either demand return of the purchase price or replacement of the animal with another of equal value.

8. RIGHTS AND OBLIGATIONS:

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both.

Additional Terms & Conditions applicable to the Online Auction can be found at: http://www.dvauction.com/terms_and_conditions

PAYMENT INSTRUCTIONS: Check, cash, cashiers check or money order made out to Branch Ranch are all acceptable forms of payment. If buyer is registered through DVAAuction.com and has approved Credit Card information on file, that credit card may be used for settlement if the buyer so chooses. If proper settlement has not been made in a timely manner, credit cards on file may be used to settle any outstanding balances.

Buyers interested in paying by credit card can leave their credit card information on file with DVAAuction by calling (402) 316-5460. All purchases must be payed in full before delivery will be scheduled.

CHECKOUT INSTRUCTIONS: Settlement shall be made directly with seller (The Branch Ranch).

ADDITIONAL INFORMATION: This sale will be a combination timed and live event. Online pre-bidding starts Friday, November 3, 2023 at 8 am and closes on Monday, November 6, 2023 at 9:30 am. The live auction at the ranch will begin at 10:30 am Monday, November 6, 2023. Once the final hammer price has been realized through the live auction, the animal will then be considered sold.

INFORCE™ 3

ONE SHOT®
BVD

INFORCE™ 3 & ONE SHOT® BVD give you a lot of &s when it comes to calf immunization.

It begins with intranasal INFORCE 3 & the rapid innate & active immunity it provides where IBR, BRSV & PI₃ respiratory diseases start & continues with immune system priming against future exposure. Plus, when you administer ONE SHOT BVD subcutaneously, your calves receive superior Type 1 BVD & Type 2 BVD & *Mannheimia haemolytica* protection.

Because when you start with a balanced immunization program, you help calves stay healthy & grow to their potential & prevent the spread of diseases & earn a better price at market & ... well, you get the picture.
